## **COMPANY DESCRIPTION**

vTech Solution Inc. was founded in 2006 to assist businesses to solve their complex challenges by using advanced technology. Our expertise in various technology fields helped our client's organizations - including government agencies, nonprofit organizations, and corporations - by developing and implementing innovative solutions.

vTech Solution's unwavering dedication to results defines our brand. Our time-tested management processes, quality control methods, and state-of-the-art work environment ensure that our clients' most complex projects are delivered on time, on budget, and on message. As a result, we enjoy enduring relationships with our existing clients, as well as a constant flow of new business. Year after year, we receive accolades from our clients and industry peers for our leadership and excellence in IT Staffing, IT Services and IT Consulting.

### KEY DIFFERENTIATORS

- **Strategic Solution:** Our core focus is solving clients' business problems. Our consultants have in-depth experience across a wide range of industries and understand the constraints at clients' workplace. We dedicate additional time to understand clients' needs to put personal touch on every phase of project or service.
- **Value Added Services:** Our innovative and efficient solutions give a competitive edge to our clients with unique market position. Services such as cloud assessment, optimized infrastructure support, and security solution prepare our client for next information security challenge.
- **Customized Solution at Optimized Cost:** Every client is unique and so is our solution to support our clients' problems. We provide customized solution at exceptionally lower cost through effective utilization, optimize processes and advanced technologies.
- **How We Hire:** Unlike other staffing agencies who exclusively relies on Job Boards or an outdated database, we secure the best talent available for you by performing a sequence of steps which are customized based on your company's unique hiring needs and not just by any recruiter but by our professionals who are specialize in their unique area of expertise.
- **Employer Testimonials:** With nearly a decade under our belt, delivering high performance employees and customized solutions to dozens of government institutions and private corporations, we continuously strive for excellence and gain employer's trust and confidence. Don't take our words for it, check out our clients' online testimonials.
- **Client-Driven Focus:** Our main concentration is on customizing strategies and programs around our employers' needs to maximize operational efficiencies while minimizing spending. At vTech, we emphasize building long-term partnerships and positive business outcomes.

# Our Experience

## CORPORATE EXPERIENCE

vTech Solution has successfully supported corporate clients, including non-profit organizations, technology firms, and corporations. Recent assignments :

- Configure and setup web-logic clustering for School Specialty.
- Maintain existing databases and support business objectives through advanced data analysis, modeling and management for Accenture.
- Create custom applications using force.com API, APEX, and other tools to support the global deployment of an enterprise system of CACI.
- Handle IT Staff Augmentation contracts for Credence Management Solutions and for CPN-network.
- Analyze unused contracting vehicle of iTech AG and generate additional revenue for company.
- Develop Java-based web applications for Equinet Technology Solutions.

## GOVERNMENT EXPERIENCE

vTech Solution has completed various IT consulting and IT staffing projects for federal and state government clients including :

- Strategic and tactical activities to support a centralized help desk for multiple DoD agencies.
- Provide customer and technical support, IT desktop infrastructure, server related issues and inventory management for Office of the Chief Technology Officer
- Implement and Maintain overall LAN/WAN network architecture with an emphasis on the Siteminder infrastructure for Pennsylvania Department of Transportation
- Develop a web-based application to maintain the resume database of Department of Labor
- Improve performance and enhance features such as online calendar system, auto alerts and legislation system for Council of the District of Columbia
- Oversees implementation of the US CDC HHPSS lead registry and changes to the ImmPact2 immunization registry for the State of Maine
